

FOR IMMEDIATE RELEASE**NATIONWIDE BOILER INC. GAINS NEW SERVICE
TECHNICIAN THROUGH INTERNAL PROMOTIONS**

Fremont, California, July 1, 2016.....Nationwide Boiler Inc. has announced the promotion of Moises ‘Mo’ Vazquez to Field Service Technician. Mo has been with the company since 2013, beginning as a shop mechanic. Within those three years, Mo has gained an exceptional amount of knowledge on boiler systems and equipment by working on boilers in the shop, at remote storage facilities, and in the field. Prior to joining Nationwide Boiler Inc., Mo worked at Combined Solar Technologies (CST) in Tracy, California, a wastewater treatment facility where he gained knowledge on wood fired boilers and water treatment systems. He also held the position of head boiler operator, and was part of their design team.

Michael Rosmando, Nationwide Boiler’s Service Manager said, “Mo is an exceptional worker and has proven that he is an asset to the company. He is highly motivated to learn about all aspects of the equipment and works hard to continuously grow and improve. The Service Technicians are often the ‘face’ of Nationwide Boiler, traveling to each job site to start up the equipment and troubleshoot as needed. Mo has a passion for pleasing our customers and the skill required to fulfill the job requirements. He will be a great addition to Nationwide Boiler’s Service Team.”
