

**FOR IMMEDIATE RELEASE****LARRY K. DAY PROMOTED TO PRESIDENT OF  
NATIONWIDE BOILER INC.**

**Fremont, California, November 23, 2015**.....Nationwide Boiler Inc., supplier of industrial and commercial rental boilers, package boilers, emissions control equipment and other power generation equipment, is pleased to announce the promotion of Larry K. Day to President effective January 1, 2016. Larry Day has held the position of Vice President of Sales and Marketing, leading the sales and rentals team for twenty-six years. As President, Mr. Day will direct and manage all facets of the business and assume all operational duties.

“I am excited and honored to be leading a talented group of people and carrying on Nationwide Boiler’s legacy of ‘Integrity, Dependability, and Real Customer Service,’” said Mr. Day. “Jeff Shallcross is a very well respected industry and company leader, and I plan to follow many of the ways in which he has been successful leading and growing Nationwide Boiler for over two decades.”

Jeff Shallcross has served as the company’s President since 1990 and was promoted to President & CEO in 2007. Mr. Shallcross will maintain his role as CEO as well as his position on Nationwide Boiler’s Board of Directors. “Larry and I have worked close together for over twenty-five years and I cannot think of a better person with the talent and business acumen to lead the company,” said Mr. Shallcross. “His experience and understanding of the boiler rentals and sales business, as well as the environmental business, is unsurpassed. He has already proven to be an industry leader.”

Nationwide Boiler has been a leading supplier of industrial rental and package boilers for nearly fifty years. Nationwide Boiler has one of the largest and newest fleets of rental boilers in the world. Trailer-mounted boilers range from 30,000 to 120,000 pph for saturated steam applications, and 40,000 to 110,000 pph, 750 psig for superheat applications. Mobile steam plants range from 50 hp to 1,000 hp. The company also stocks new and reconditioned package watertube boilers ranging from 50,000 to 200,000 pph. In addition, Nationwide Boiler supplies air pollution control equipment including the CataStak™ SCR system to reduce NOx emissions (leading to petrochemical smog) and CO2 emissions (a greenhouse gas).
