

FOR IMMEDIATE RELEASE

**NATIONWIDE BOILER INC. NOW REPRESENTS
E-TECH HEAT RECOVERY SYSTEMS**

Fremont, California, December 15, 2017.....Nationwide Boiler Inc., supplier of rental, new, and used boiler systems, now represents E-Tech Heat Recovery Systems. The agreement grants Nationwide Boiler the exclusive rights to sell and promote E-Tech Heat Recovery Systems products and services to both the California and Nevada markets. The E-Tech product line includes circular, box, and condensing economizers, Economite in-stack economizers, waste heat boilers, Thermochargers, tubular air heaters / steam coil air heaters, fired superheaters, packaged systems, and miscellaneous equipment such as parts, stack transitions, and ducts.

With headquarters in Broken Arrow, OK, E-Tech Heat Recovery Systems has been providing customers with precise custom solutions for over forty years. The company delivers equipment for applications including boiler rooms, dryers, engine and turbine exhaust, and various process related industries. Visit www.etechheatrecovery.com for more information.

Nationwide Boiler Inc. has provided rental, new and used boilers and related equipment to heavy commercial and industrial companies for over fifty years. The company offers a complete line of low and ultra low NOx boilers, mobile rental units, EconoStak economizers for fuel efficiency, CataStak™ SCR systems for 2½ ppm compliance, and additional boiler related equipment. With headquarters in Fremont, CA, a sales and service office in Visalia, CA, and a cUL508a certified panel fabrication facility in Washougal, WA, the company provides equipment and services to customers worldwide. For more information, visit www.nationwideboiler.com.
