

## More Than A World Class Rental Boiler Company

### Rental Boilers, New & Used Boilers, Emissions Control, Custom Control Systems ... And More!

At Nationwide Boiler, we've built a strong reputation on providing reliable, world class rental boilers to support industrial companies during planned outages and emergency situations. However, did you know that Nationwide Boiler provides temporary boiler systems and a great deal more? In fact, we have nearly 250 successful CataStak™ SCR system installations providing NOx reduction as low as 2.5 ppm. In addition, we own and operate a UL-certified panel shop, where we design and build PLC-based control panels for our equipment as well as many unique end-user applications.

Discover the extensive range of products and services offered to all of our customers:

Fleet of over 100 Rental Boilers & Auxiliary Equipment

New and Reconditioned Package Boilers, In-Stock & Built-to-Spec

CataStak™ SCR Systems for Ultra-Low NOx Emissions Compliance
